

JASON HERRMANN

San Clemente, CA | +1 (949) 633-7194 | jasonaherrmann12@gmail.com | linkedin.com/in/jason-a-herrmann

EDUCATION

UNIVERSITY OF CALIFORNIA AT LOS ANGELES

Bachelor of Science in Electrical Engineering

Relevant Coursework: Circuit Design; Signal Processing; Digital Signal Processing

Los Angeles, CA

Sept. 2022 – Jun. 2026

HIGH SCHOOL

Memberships: National Honors Society

San Clemente, CA

Aug. 2018 – Jun. 2022

WORK EXPERIENCE

SUNSET CANYON RECREATION CENTER

Lifeguard

Los Angeles, CA

Jun. 2024 – Jun. 2026

SAN CLEMENTE AQUATICS CENTER

Lifeguard

San Clemente, CA

Jun. 2021 – Present

ACTIVITIES

LAMBDA CHI ALPHA FRATERNITY

Member and Design Chair

Los Angeles, CA

Sept 2023 – Jun. 2026

- Active in risk management; designed merchandise and event flyers using Adobe Photoshop for campus events.

California Public Interest Research Group

Member

Los Angeles, CA

Jan. 2026 – Jun. 2026

- Advocate for Californians' health, safety and wellbeing. Assisted with flyer, phone banking and event planning for campus campaigns.

UNIVERSITY PROJECTS

Visual Speech Recognition on Embedded Microcontroller

Jan. – Mar. 2026

- Designed and implemented a lightweight Visual Speech Recognition (lip-reading) system using low-resolution grayscale mouth-movement sequences, applying CNN-based spatiotemporal feature extraction.
- Optimized and deployed the model on an STM32 NUCLEO embedded microcontroller using quantization and model compression.

Audio Signal Filter and Feature Extraction

Nov. 2025

- Developed a speech-command classification pipeline using Python to preprocess audio and extract features (MFCC, LPC, spectral methods), training an XGBoost model on clean, white-noise, and pink-noise datasets.
- Analyzed the impact of noise and feature selection on model performance, comparing preprocessing techniques and feature representations to quantify accuracy and robustness under varying conditions.

ADDITIONAL

Technical Skills: KiCad, STM32CubeIDE, Logisim Evolution, LTSpice, Adobe Photoshop

Programming Languages: MATLAB, Python, C, JavaScript

Certifications: Pediatric and Adult CPR, First Aid
